**Retrospective of the 2020 edition**

The year 2020 was marked by a pandemic that disrupted everyone’s daily life. During the initial lockdown, bringing together hundreds of companies and thousands of visitors in one place seemed completely unimaginable. However, with creativity and perseverance, the Forum EPFL adapted to this unprecedented situation.

In 2020, with the implementation of necessary sanitary measures, the organization of the Forum EPFL was revisited to ensure the safety of all. This innovative format of the Forum EPFL was still a success.

In collaboration with Swiss Climate, we do our best to make our Forum a carbon neutral event.
This year, we choose to support climate protection, with a main focus on CO$_2$ storage and sustainable management of Swiss forests.

By supporting this project with the “0-emission” option, you contribute to growing the wood reservoir, leading to an increased CO$_2$ storage, to a sustainable exploitation of the Swiss forests and to stimulating fuel wood production.

www.swissclimate.ch
Support our “Forum Responsible” project for a zero carbon emission event.

During your registration, you will have the opportunity to subscribe to the 0-emission option. It will get you involved in our project of reducing our ecological impact. In 2021, 112 companies subscribed to the 0-emission option contributing to the greenhouse gas emission compensation of the fair.

By your donation, you contribute to helping this cause. In appreciation, a flower and a 0-emission logo will be delivered at your stand.
