End of the Forum EPFL 2023
The EPFL, a prestigious university

- One of the best technical universities in Europe (14th worldwide at the QS World University Ranking 2022)
- High quality education in all the engineering fields
- More than 11’000 students
- An international school with 116 different nationalities represented and more than 50% of foreign students

EPFL Campus - Lausanne, Switzerland
**The Forum EPFL**

In October 2023, the Forum EPFL will celebrate its 41st anniversary and remains one of the biggest job fairs in Europe, improving its services on a yearly basis. The Forum’s goal is to facilitate the students’ transition between studies and the labor market by offering companies a privileged window to present themselves to the students.

Quality and professionalism are fundamental pillars that drive the 20 committee members to provide services worthy of the Forum EPFL. Once again, the Forum EPFL will take place at the SwissTech Convention Center (STCC), an ultra-modern convention center located in the center of EPFL’s campus, giving a perfect setting for companies and students to meet. Every year, we thrive to improve our services, taking into account satisfaction surveys and comments from previous years.

**Figures of the year 2022**

- **210** registered companies
- **125** registered start-ups
- **300** interviews during the event
- **11** workshops organized
- **20’000** visitors during the week
- **90** company presentations
- **189** individual stands
- **4.9/5** company satisfaction

*Satisfaction survey 2022*
After the pandemic, the 2021 edition of the Forum EPFL had the pleasure of welcoming more than 150 companies. We can proudly say that despite the situation the Forum managed to keep great attendance and to ensure everyone's security at the fair.

**Figures of the year 2021**

- **160** registered companies
- **112** registered start-ups
- **300** interviews during the event
- **7** workshops organized
- **15’000** visitors during the week
- **71** company presentations
- **153** individual stands
- **4.4/5** company satisfaction

*Satisfaction survey 2021*
**Retrospective of the 2020 Edition**

The year 2020 was marked by a pandemic that disrupted everyone’s daily life. During the initial lockdown, bringing together hundreds of companies and thousands of visitors in one place seemed completely unimaginable. However, with creativity and perseverance, the Forum EPFL adapted to this unprecedented situation.

In 2020, with the implementation of necessary sanitary measures, the organization of the Forum EPFL was revisited to ensure the safety of all. This innovative format of the Forum EPFL was still a success.

**Figures of the year 2020**

- **2’100** registered students
- **146** registered companies
- **58** registered start-ups
- **51** company presentations
- **26** interview rooms
- **350** interviews during the event

Thanks to this edition, the Forum EPFL has now acquired the experience to make its 39th edition a success in all circumstances.
ISO 14001, Environmental Management Systems - Certified in 2009 and recertified in 2021

Since 2009, the “Responsible Forum” project expresses our concern over environmental issues. The Forum EPFL is the first event of its kind to be carbon neutral and ISO 14001 certified.

ISO 9001, Quality Management Systems - Certified in 2013 and recertified in 2021

In 2013, the Forum EPFL became one of the first events of its kind to be ISO 9001 certified in Europe. Following an audit by the Swiss Association for Quality Systems (SQS), an internationally recognized body, the Forum has been granted this certification, which acknowledges the quality of the organisation of the event.

Its process of quality management can meet the growing demands of companies by optimizing the transmission of know-how from year to year. Therefore, the ISO 9001 guarantees the professionalism of the Forum EPFL.
The ENAC faculty of EPFL

The ENAC faculty (Architecture, Civil and Environmental Engineering) brings together three transformative disciplines:
- architecture,
- civil engineering,
- environmental science and engineering.

By bringing these three disciplines together, the ENAC faculty prepares our society for one of the most important challenges of this century: to guarantee a sustainable living environment for humanity through a successful integration of human activities within the biosphere.

The ENAC faculty offers a unique cocktail whose interdisciplinary potential provides all the power required to achieve excellence in the training of tomorrow’s engineers and to enable our scientists to be at the forefront of their research.
OVERVIEW OF THE MASTERS

• **The Master’s program in Architecture** perpetuates the tradition of polytechnic training for design and technical architects with a solid theoretical background. The project at the architectural, urban and territorial scale, as a central discipline, feeds on contributions from theory and history, sociology and economy, construction, study of structures, applied physics in building, visual arts and various forms of illustration and modelling.

• **The Master’s program in Civil engineering** gives the students the required knowledge to face a big challenge: create the necessary infrastructures for economic prosperity, hence guaranteeing the whole population an adequate standard of living. High priority is given to a transdisciplinary teaching in the ENAC School by bringing together civil engineers, architects and environmental engineers, through the program Design & Build together.

• **The Master’s program in Environmental sciences and engineering** prepares students for the multidisciplinary nature of environmental engineering problems and educates future engineers to deal with the complexities and uncertainties of natural and engineered systems. This Master’s program focuses on environmental engineering in natural systems where solutions must be developed under conditions of incomplete information, spatial heterogeneity, and uncertainty.
**The ENACorner Offer - Registration**

The ENACorner offer is tailored to SMEs in the fields of construction, environment and architecture.

The aforementioned includes:

- **Free access to the ENAC CV-library**, a database including CVs of all ENAC faculty’s students enrolled in the Forum EPFL;
- **A 6 m² equipped stand, on Friday October 13th 2023**, in a specific area dedicated to ENACorner, including:
  - Assembly of the stand made of white composite panels (2.5m x 0.98m);
  - 1 table and 2 chairs per 6m² of stand;
  - 1 recycle bin;
  - 1 sign on your stand with the name of your company.
- **Your 2-pages presentation in the Companies Book (LdE) that lists all companies participating in the Forum EPFL 2023.**

**Price of the enrolment**:  

| ENACorner offer | CHF 1’500.- |

It is also possible to book presentations and workshops or to organise interviews and lunches. All the additional services we offer are detailed in our Salesbook.

*Excluding VAT - Rate of 7.7%*
In collaboration with Swiss Climate, we do our best to evaluate our Forum’s carbon footprint.

This year, we choose to support climate protection, by donating part of our benefits to the SeaCleaners association, to protect oceans.

Plastic pollution in our oceans is a menace to ecosystems, economics and human health.

By supporting this project with the “Responsible Forum” option, you contribute to the depollution of oceans and the conservation of marine biodiversity.
Support our “Responsible Forum” project for a zero carbon emission event.

During your registration, you will have the opportunity to subscribe to the «Responsible Forum» option. It will get you involved in our project of reducing our ecological impact.

In 2022, 126 companies subscribed to the 0-emission option contributing to the greenhouse gas emission compensation of the fair.

By your donation, you contribute to helping this cause. In appreciation, a flower and a «Forum Responsable» logo will be delivered at your stand.

**Contribution*:  

«Responsible Forum» option  |  CHF 30.-

*Excluding VAT - Rate of 7,7%
If you are convinced by our ENAC offer and wish to join the EPFL Forum for its 41st edition, please contact our Company Relations.
