End of the Forum EPFL 2024	

THE EPFL, A PRESTIGIOUS UNIVERSITY

One of the best technical universities in Europe (9th european at the QS World University Ranking 2024)

High quality education in all the engineering fields

More than 11'000 students

An international school with 116 different nationalities represented and more than 50% of foreign students

EPFL Campus - Lausanne, Switzerland

THE FORUM EPFL

In October 2024, the Forum EPFL will celebrate its **42nd anniversary** and remains one of the biggest job fairs in Europe, improving its services on a yearly basis. The Forum's goal is to facilitate the students' transition between studies and the labor market by offering companies a privileged window to present themselves to the students.

Quality and professionalism are fundamental pillars that drive the 20 committee members to provide services worthy of the Forum EPFL. Once again, the Forum EPFL will take place at the SwissTech Convention Center (STCC), an ultra-modern convention center located in the center of EPFL's campus, giving a perfect setting for companies and students to meet. Every year, we thrive to improve our services, taking into account satisfaction surveys and comments from previous years.

Figures of the year 2023

210 registered companies

135 registered start-ups

33 interview rooms

11 registered NGO/IGO

22'000 visitors during the week

96 company presentations

188 individual stands

4.5/5 company satisfaction

Satisfaction survey 2023

RETROSPECTIVE OF THE 2022 EDITION

The year 2022 marks the resumption of the Forum in its original version, following adaptations made during the pandemic. Students and companies were able to meet in a context conducive to exchange and job hunting.

Figures of the year 2021

210 registered companies

125 registered start-ups

300 interviews during the event

11 workshops organized

20'000 visitors during the week

90 company presentations

189 individual stands

4.9/5 company satisfaction

Satisfaction survey 2022

RETROSPECTIVE OF THE 2021 EDITION

After the pandemic, the 2021 edition of the Forum EPFL had the pleasure of welcoming more than 150 companies. We can proudly say that despite the situation the Forum managed to keep great attendance and to ensure everyone's security at the the fair.

Figures of the year 2021

160 registered companies

112 registered start-ups

300 interviews

15'000 visitors during the week

71 company presentations

4.4/5 compagny satisfaction

ISO 14001, Environmental Management Systems - Certified in 2009 and recertified in 2021

Since 2009, the “Responsible Forum” project expresses our concern over environmental issues. The Forum EPFL is the first event of its kind to be carbon neutral and ISO 14001 certified.

ISO 9001, Quality Management Systems - Certified in 2013 and recertified in 2021

In 2013, the Forum EPFL became one of the first events of its kind to be ISO 9001 certified in Europe. Following an audit by the Swiss Association for Quality Systems (SQS), an internationally recognized body, the Forum has been granted this certification, which acknowledges the quality of the organisation of the event.

Its process of quality management can meet the growing demands of companies by optimizing the transmission of know-how from year to year. Therefore, the ISO 9001 guarantees the professionalism of the Forum EPFL.

THE ENAC FACULTY OF EPFL

The ENAC faculty (Architecture, Civil and Environmental Engineering) brings together three transformative disciplines:

- architecture,
- civil engineering,
- environmental science and engineering.

By bringing these three disciplines together, the ENAC faculty prepares our society for one of the most important challenges of this century: to guarantee a sustainable living environment for humanity through a successful integration of human activities within the biosphere.

The ENAC faculty offers a unique cocktail whose interdisciplinary potential provides all the power required to achieve excellence in the training of tomorrow's engineers and to enable our scientists to be at the forefront of their research.

OVERVIEW OF THE MASTERS

- **The Master's program in Architecture** perpetuates the tradition of polytechnic training for design and technical architects with a solid theoretical background. The project at the architectural, urban and territorial scale, as a central discipline, feeds on contributions from theory and history, sociology and economy, construction, study of structures, applied physics in building, visual arts and various forms of illustration and modelling.
- **The Master's program in Civil engineering** gives the students the required knowledge to face a big challenge: create the necessary infrastructures for economic prosperity, hence guaranteeing the whole population an adequate standard of living. High priority is given to a transdisciplinary teaching in the ENAC School by bringing together civil engineers, architects and environmental engineers, through the program Design & Build together.
- **The Master's program in Environmental sciences and engineering** prepares students for the multidisciplinary nature of environmental engineering problems and educates future engineers to deal with the complexities and uncertainties of natural and engineered systems. This Master's program focuses on environmental engineering in natural systems where solutions must be developed under conditions of incomplete information, spatial heterogeneity, and uncertainty.

THE ENACORNER OFFER - REGISTRATION

The ENACorner offer is tailored to SMEs in the fields of construction, environment and architecture.

The aforementioned includes:

- **Free access to the ENAC CV-library**, a database including CVs of all ENAC faculty's students enrolled in the Forum EPFL;
- **A 6 m² equipped stand, on Friday October 11th 2024**, in a specific area dedicated to ENACorner, including :
 - Assembly of the stand made of white composite panels (2.5m x 0.98m);
 - 1 table and 2 chairs per 6m² of stand;
 - 1 recycle bin;
 - 1 sign on your stand with the name of your company.
- Your 2-pages presentation in the Companies Book (LdE) that lists all companies participating in the Forum EPFL 2024.

PRICE OF THE ENROLMENT*:

ENACorner offer

CHF 1'500.-

It is also possible to book presentations and workshops or to organise interviews and lunches. All the additional services we offer are detailed in our [Salesbook](#).

Extract from the General Conditions - Refund Policy:

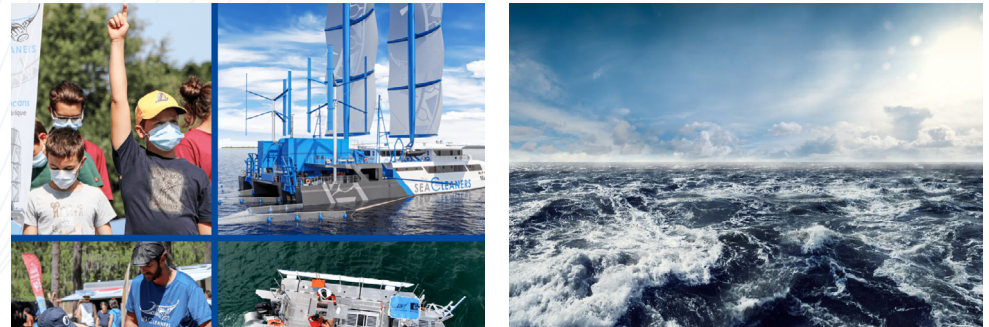

If your company decides to withdraw its registration, you will be charged the following amounts:

- from July 1st : 50% of the ENACorner offer's amount (CHF 750.-),
- from August 1st : 50% of the ENACorner offer's amount (CHF 750.-), plus 50% of the amount due for other reserved services,
- from September 1st : the ENACorner offer's amount (CHF 1'500.-), plus the amount due for other reserved services.

FORUM RESPONSIBLE

In collaboration with Swiss Climate, we do our best to evaluate our Forum's carbon footprint.

This year, we choose to support climate protection, by donating part of our benefits to the SeaCleaners association, to protect oceans.

**PLASTIC POLLUTION IN OUR OCEANS IS A MENACE TO ECOSYSTEMS, ECONOMICS
AND HUMAN HEALTH.**

By supporting this project with the “Responsible Forum” option, you contribute to the depollution of oceans and the conservation of marine biodiversity.

Responsible Forum *OPTION*

Support our “Responsible Forum” project for a zero carbon emission event.

During your registration, you will have the opportunity to subscribe to the «Responsible Forum» option. It will get you involved in our project of reducing our ecological impact.

In 2023, 126 companies subscribed to the «Forum Responsable» option

By your donation, you contribute to helping this cause. In appreciation, a flower and a «Forum Responsible» logo will be delivered at your stand.

CONTRIBUTION* :

«Responsible Forum» option

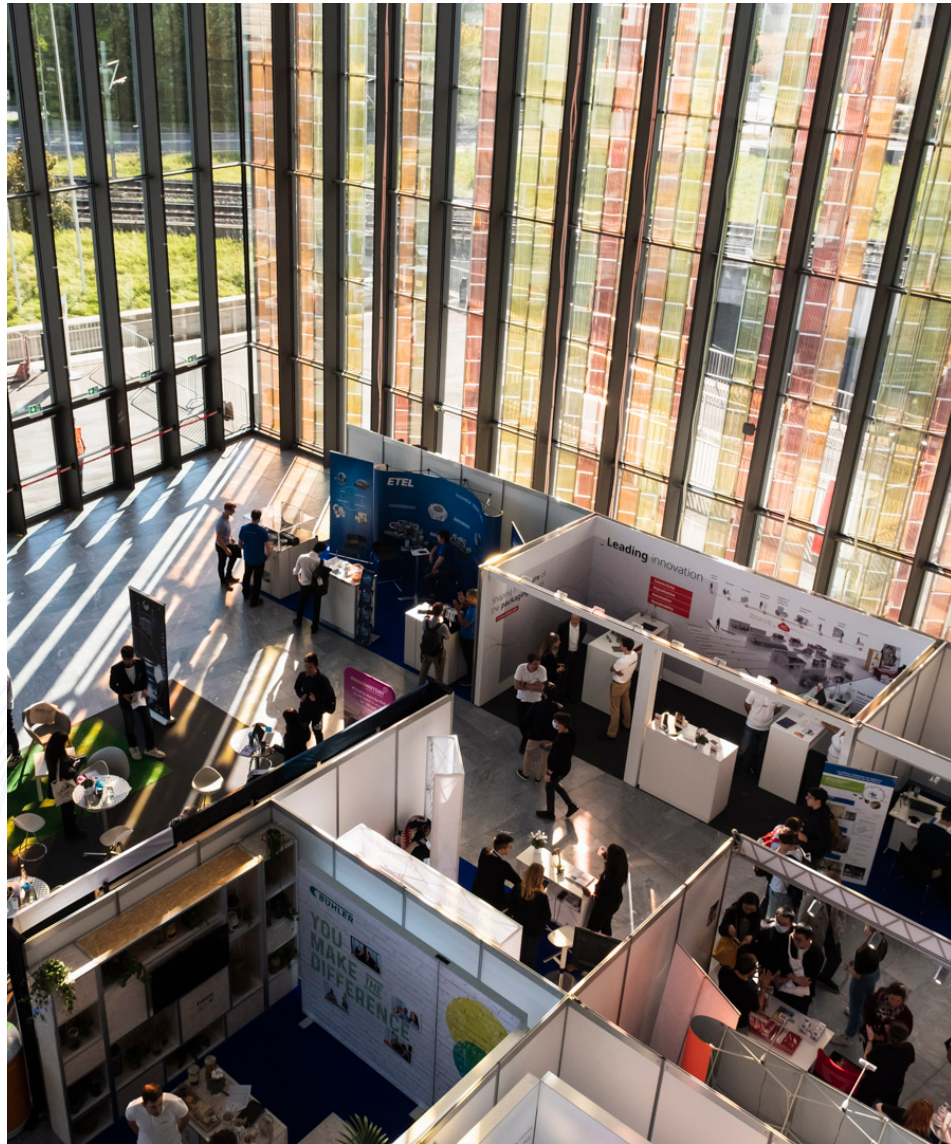

CHF 30.-

*Excluding VAT - Rate of 8,1%

If you are convinced by our ENAC offer and wish to join the EPFL Forum for its 42nd edition, please contact our Company Relations.
